Cornerstone Multi Academy Trust

Music Policy: Classroom Music Lessons

Rationale

Music is a powerful, unique form of communication that can change the way pupils feel, think and act. It transcends different cultures, abilities and generations. Listening to, and making music, fulfils an instinctive human need for self-expression and creativity. It stimulates responses both on emotional and intellectual levels. Music can be a lifelong source of pleasure. It is education for life. This policy seeks to ensure that children can fully participate in whole class music lessons.

Aims

To encourage, all pupils to:

- develop musical skills and concepts through listening, appraising, performing and composing.
- develop social skills through co-operation with others in the shared experience of music making.
- develop an understanding of musical traditions and developments in a variety of cultures.
- be motivated to enjoy and succeed in music

Music and the National Curriculum

Music contributes to the wider aims of Primary Education including, literacy, ICT, P.E, Art, P.S.H.E. and citizenship.

Music can develop skills, attitudes and attributes that can support learning in other subject areas that are needed for life and work skills – e.g. listening skills, concentration, creativity, intuition, aesthetic sensitivity, perseverance, self-confidence and sensitivity towards others. The school policy is to plan from the National Curriculum and Foundation Stage Guidance in light of the project-based curriculum, as consistent with other subjects across the trust. 

Pupils' Experiences

Both in music lessons and across the curriculum, Music opportunities will be created for pupils to: 

- listen, appraise, perform and compose in a variety of genres, styles and audiences.
- undertake a balanced programme of activities.
- work individually, in groups or as a whole class
- make appropriate use of technology to create and record music
- make use of outside agencies, peripatetic teachers, music concerts etc
- make use of audio/visual material
- record findings in a variety of ways.
- to learn one musical instrument in whole class ensemble lessons.
- to participate in small group or individual musical tuition on chosen instrument using peripatetic music teachers.
- to perform to wider audiences of parents, local community and other schools at end of year productions, assemblies, and Christmas shows.

Lesson Content

Each instrumental lesson consists of elements of listening to live or recorded music, reading and following written music, discussion of theory and understanding the language of music, as well as playing instruments both individually and with the teacher or other pupil. Class planning for music will endeavour to cover a balance of these elements across each half term's music lessons.

Behaviour

Behaviour expectations are the same for the children both on and off the site of each school, including in the hall or in a dedicated music room. Further details of acceptable behaviour can be found in the school policy (available online).

Equal Opportunities

- We aim to give every pupil the opportunity to enjoy a variety of musical activities.
- Staff will create an environment that challenges stereotypes and supports the appreciation of other cultures.
- All pupils will have an equal opportunity to reach their full potential across the music curriculum regardless of their race, gender, cultural background or special needs.

SEND / Able Pupils

Music lessons are inclusive to pupils with special educational needs and disabilities. Where required, children's IEP's incorporate suitable objectives from the National Curriculum for music or development Matters and teachers keep these in mind when planning work. Where appropriate, focused intervention in school helps children with gaps in their learning and understanding, and differentiated activities are planned to support children with SEND but also activities that provide sufficient challenge for children who are high achievers. It is the teachers' responsibility to ensure that all children are challenged at a level appropriate to their ability. Where relevant, the trust Pupil Premium policy also details how additional support or challenge may be delivered.

Assessment and Record Keeping

- Assessment is ongoing and evidence for recording and reporting purposes is gained from teacher observation. With the exception of Foundation Stage, pupils' achievements in music will be assessed half termly.
- Annual reports for parents – A statement for music is based on the extent to which a pupil has achieved against N.C. Attainment Targets.

Resources

The resources are available across the trust and are moved between school sites as required for the planned delivery of the music curriculum:

- Instrument Boxes in each store room
- Two electric pianos, one acoustic piano, three keyboards, one xylophone, one baby grand electric piano

- Books – Library
- Whole class ukulele set
- Whole class mixed Bb brass set
- 14 taiko drums
- Whole class boomwhackers sets (per school)
- Whole class samba kit
- Whole class recorder set

Health and Safety Issues

- Using instruments appropriately.
- Hygiene of sharing mouthpieces, e.g. brass, recorders,
- Electrical equipment will be inspected as per the school schedule.

Monitoring the Policy

The Subject leader will monitor the implementation of the policy regularly.

The standards and effectiveness committee of the trustee body will monitor this policy on a three-year basis. If the policy appears to need modification, then the committee will report its findings and recommendations to the full governing body.

We are going to create an oboe out of a drinking straw.

- Cut the top of the straw to make a 'reed'.
- Pinch the end of the straw between your thumb and index fingers. Blow across the top end, but don't blow into the straw.
- Alter the pitch by moving your thumb and fingers up and down, while you keep pinching the straw.

★ Challenge: Cut 5 straws of different lengths and tape together to make panpipes.
